And while I am not able to use any of the games features directly on the Roku, I am getting the high definition video stream for free. This video on youtube is an announcement from Amazon that K4 TV has been removed from the Roku channel store. It's a great source of tennis info and highlights. Thanks to Ravin for the video guide. Using K4 TV on Roku: - click the link above - login to your K4 TV account - click the "ADD" button on the channel page - enter the Roku channel search bar and search for K4 TV - you should see the Roku channel store home page open - click the "manage channel" button on the top right hand side - click "ADD" under "software" - find and click "K4TV Roku Channel" from the list of available channels - scroll down to the bottom and click the "Activate" button - when prompted, enter your Roku cable or log in to your Roku account - after the channel has been activated, the K4TV Roku channel should appear in the Roku channel list Links for K4TV: K4TV Website (RedTube) K4TV Twitter K4TV Facebook Squirrel vs. Tommy - Game - Tennis Elbow 0:00:00 - CHAPTER 1 INT - SQUIRREL VS TOMMY 0:12:28 - CHAPTER 2 INT - SQUIRREL VS TOMMY 1:01:17 - CHAPTER 3 1:13:59 - CHAPTER 4 1:23:46 - CHAPTER 5 1:30:00 - CHAPTER 6 1:22:00 - CHAPTER 7 1:41:35 - CHAPTER 8 1:48:47 - CHAPTER 9 2:05:23 - CHAPTER 10 2:12:29 - CHAPTER 11 2:17:56 -
