Use Markup Assist to quickly add a variety of styles to any text or object, and then send the drawing with those styles applied to another drawing. View and edit text styles directly in the Markup Assistant. Add multiple object styles to a drawing, or export styles to a file. Use the new action feature to send feedback to your colleagues in your company or team. With the new action feature, you can use a macro to set up a frequent action that can be triggered by a specific date and time, a specific date, or a certain type of feedback that appears in the Markup Assistant. In your own drawing, you can create an action that makes a sound, sends a message, triggers a video or GIF, or sets up a list of people to add an action to. Use the Markup Assistant to save time by adding common feedback, such as initials or arrows to annotations and comments. Newly selected text and control markers are now automatically added to annotations. Expand your work space for more creative options by adding a second monitor or opening a new drawing. You can now open two-drawing versions of the same drawing at the same time, for a variety of multitasking options. (video: 1:57 min.) Draw in your own style with the new drawing style feature. New drawing styles include shapes, icons, patterns, and symbols. You can choose a new default style, or create new styles with the new drawing style feature. Use the new drawing style to add an icon to a drawing or a control marker, or to change an object's fill and outline colors. You can use the new Drawing Styles tool to view and use all drawing styles at once.
