I'm running into 404 on the GET request. Below is my code: Index.cshtml ... @Scripts.Render("~/bundles/test") ... MainController.cs public class MainController : Controller { public JsonResult TestAjax() { return Json(new {foo = "bar", name = "TEST"}); } } app_start.cshtml ... @using BundleConfig.RegisterBundles; ... @{ ViewBag.Title = "Test"; Layout = "~/Views/Shared/_Layout.cshtml"; } _Layout.cshtml I'm aware there's similar questions on SO already, but I've looked through them and I'm not having any success. Can anyone see what I'm missing here? EDIT: I also tried adding a Custom JsonResult, which is defined as follows: public class CustomJsonResult : JsonResult { public CustomJsonResult() { JsonRequestBehavior = System.Web.Mvc.JsonRequestBehavior.AllowGet; } public override void ExecuteResult(Controller

We always answer back.It's Here SINCE it was presented in April, the 'It's Here' exhibition has been a huge success for the Royal Society of the encouragement of Arts, Manufactures and Commerce (RSA). With the support of the Scottish National Portrait Gallery and the Royal Incorporation of Chartered Engineers (RICE), a showcase of 13 of the Society's most beautiful sculptures has been on display at the RSA's Dundee headquarters, on the banks of the River Tay, ever since. Author: D. J. McGlashan Having enjoyed a prolific career, sculptor Lewis Bow has an extensive amount of work around the world in most major UK art galleries and museums. He studied at Edinburgh College of Art. The story of the history of the RSA begins with the general election in 1707, when a public meeting was called on 31 January at the Assembly Rooms of the Royal Burgh of Dundee. The Burgh Council were well in support of the idea, with Lord Bruce being one of the signatories. Several members of the Council joined the meeting, along with representatives from other burghs, who had also formed an RSA. The next year, at the 1708 meeting, a Scots dialect dictionary was added to the agenda, as it was recognised that 'The habits of the Scots are no other than a national language' - another step towards becoming a national society. In the same year, the members launched their first magazine, The Royal Salute, with the editor becoming 'a permanent resident of the Royal Society'. The magazine continued to be published, first for almost 40 years, before it was amalgamated into The Engineers' Journal of the Institute of British Engineers. The Royal Society is the UK's only association of scientists, engineers and mathematicians dedicated to promoting scientific knowledge. It has no religious, political or commercial affiliations, and is supported entirely by its members and public subscription. Its aims are similar to those of the Royal Society in Edinburgh: to support and encourage scientific study and scientific knowledge, to promote the welfare and knowledge of the public, and to encourage the development of intellectual and moral education. 09e8f5149f

GoodMood is a relatively simple application that downloads the current photo of the day automatically and sets it as your desktop background. It is easy to use and very unobtrusive, but it doesn't offer as many features as other wallpaper changers we have come across. Hassle-free wallpaper changer Essentially, this application runs in the system tray and updates your wallpaper every day to the image currently posted on the National Geographic website. However, you can also choose to disable automatic updates if you want to keep a picture on your desktop for longer. Once you have started and configured the program, you can let it run in the background and get on with your day. It will be launched automatically when you boot up your PC. Offers some basic configuration options As we have already mentioned, you can specify whether or not the application should search for new pictures or update your wallpaper automatically. You can perform these operations directly from the program's system tray menu. By default, images are cropped in order to be suitable for your desktop's resolution, but you also have the option of centering them and filling the gaps with a bright or dark color. Good way to keep your desktop looking fresh On the whole, GoodMood isn't the most advanced wallpaper changer we have seen, as it doesn't let you use pictures that were featured by National Geographic in the past. Nevertheless, it is a great utility for users who only want a quick way to set the current photo of the day as their wallpaper Download Cute Low-Cost Disney Star Mickey Mouse Counter Clock Widget Download Cute Low-Cost Disney Star Mickey Mouse Counter Clock Widget Cute Low-Cost Disney Star Mickey Mouse Counter Clock Widget Description: Whether you want to make your home more fun or even your kitchen, with this Cute Disney Star Mickey Mouse clock you are sure to be very pleased. Everyone has wallpaper on their Windows PC. For some people, their primary computer desktop wallpaper depicts a clear picture of something that is purely aesthetic in nature. For others, it is a collage of photos that they have taken. While it may be difficult to create these images, installing a desktop wallpaper switcher can make the task easy and simple. WallpaperIdea is one wallpaper switcher that does not require Adobe Photoshop, Flash or other similar tools, all of which are often required when creating wallpaper. In fact, you will not even need to save the photos to your hard drive because the software offers a feature that automatically creates a collage from a set of photos. WallpaperIdea is free to use, but you will need to have a .jpg format image on your computer's hard drive, and the images need to be in sequential order.
