The EU's institutions confirmed this week that the UK is set to leave the EU in about four months, as Theresa May delivers her final speech on Brexit in Florence, Italy today. Joan Waugh, the former head of BBC Europe, joins the programme to discuss whether the Prime Minister can get what she wants, and will it leave the EU worse off? Ms Waugh also discusses whether an Ireland-Northern Ireland border solution can be found and the significance of the UK's relationship with France, Germany and Italy on Brexit. Produced by Justin Rowlatt.

Nicola Sturgeon has claimed Scotland could leave the United Kingdom "at any moment". The First Minister said she could not "understand" the suggestion that there are rules governing how a country can leave the European Union. A succession of commentators have said that Scotland could cut and run from the EU while retaining EU membership. Other than the ability to leave, the UK is not bound to the EU by treaties, they argue. 'Rules governing leaving'

Nicola Sturgeon has called on the UK Government to clarify what "rules" exist for leaving the EU

FIFA is a widely popular and successful series of association football video games produced by Electronic Arts. FIFA games are typically the highest-selling video games of a particular year, and are also among the highest-grossing video game franchises. The series itself debuted in September 1992, while the most recent game in the series, FIFA 19, was released in September 2018. FIFA was originally announced at E3 1992 as Championship Manager, but was soon changed to Soccer, later shortened to FIFA. Later in 1992, the first game in the series was released in

---

North America, while in Europe, the series was initially released as Pro-Am Soccer to avoid confusion with Championship Manager. The next game in the series was released in North America in October 1993, followed by releases in Europe and Japan. Notable titles in the series include FIFA 97, FIFA 98, FIFA 99, FIFA 2000, FIFA 99 Legends, FIFA 10, FIFA 11, FIFA 12, FIFA 13, FIFA 14, FIFA 15, and FIFA 16. Gameplay in FIFA In FIFA games, gameplay is similar to that of other soccer games, such as the TopScorer mode from EA Sports' previous installment in the series, FIFA Street 2. Gameplay is similar in the way that the game attempts to simulate certain aspects of the sport, such as play making, passing, goalkeeping, and running. There are hundreds of players, each with different attributes, and gameplay is generally controlled by two main game modes: Exhibition and Career. In Exhibition Mode, the player takes control of a single squad during a single match, whereas in Career Mode, the player takes control of a team through multiple matches over many seasons. In both modes, gameplay is turn-based, and, as the name suggests, the player controls a team of 11 players. In Exhibition Mode, gameplay is similar to that of a Pick-up game on Xbox Live or PlayStation Network. As in real life football games, the aim of the game is to control a team of 11 players and score goals by either tapping the player on the screen or using in-game gestures. The goal is for players to make successful passes, shooting and shooting from distance, and getting the ball into the net. A match begins with the ball delivered to the player as normal, either via kicks, passes, or dribbles. The player is then able to either

pass the ball or do various dribble moves in an attempt to make the best passing move. After a period of time, the ball passes into bc9d6d6daa
